

2024 LAND APPLICATION TRAINING

APPLYING MANURE MANAGEMENT CONCEPTS ON-FARM

Sessions will be held in-person and will include an update on regulations and discussion on how to best use manure on your operation. All-day sessions will meet requirements for Land Application Training. Afternoon sessions will meet needs for Recertification.

IMPORTANT NOTES!

- Initial land application training certification requires participation in full event (6-6.5 hours).
- Recertification training requires participation in the 2.5-hour session. OR you may attend the full event.
- **Anyone is welcome.** Crop farmers and livestock producers will learn useful, applied information.
- More information is available at: water.unl.edu/lat

PRE-REGISTRATION IS REQUIRED

Go to water.unl.edu/lat or scan the QR code above

\$75 per operation requiring certification*

**Multiple people may attend from an operation, but all must be registered.*

\$25 per person with no expectation of certification**

***All day only*

Panhandle Research & Extension Center
4502 Avenue I
Scottsbluff, NE 69361

SESSIONS

Initial Session: 9 am to 4 pm

Recertification: 1 pm to 4 pm

PRODUCER TESTIMONIALS

“...it is interactive, not just
reading slides.”

“[The best part of the program was]
actually using the information on
practice fields.”

“[I enjoyed] the hands-on learning and
interaction with other producers.”
