

Save Money By Using Manure on Crops

Don't WASTE your time and money, learn to use manure nutrients effectively.

Choosing to use manure instead of commercial fertilizer can be an advantage to your bottom line. In this workshop, we'll discover how to value the fertilizer nutrients in manure, so you know you are meeting crop needs while saving money at the fertilizer dealer. We'll discuss which fields are best for manure and which might be better suited to commercial fertilizer.

Nov. 30, 2023

9 am to 12:45 pm

West Point, NE

\$20 per person

**Catered lunch sponsored in part
by Nutrient Advisors**
